

Sports Arbitrage - Advanced Series - Cross-Market Trading Strategies II

As an active & ambitious sports arbitrage trader, you owe it to yourself to get armed with advanced techniques that go beyond the standard methods used by the majority. Cross-Market Trading Strategies use mathematical models to generate risk-free trades between different sports-betting markets. These types of trades are all but invisible to most sports arbitrage software and they occur most often within highly liquid soccer markets where bookmakers accept the highest stakes & exchanges have the greatest market-depth. In this series, the highly acclaimed and widely respected trader Rajeev Shah (author Sports Arbitrage - How To Place Riskless Bets And Create Tax Free Investments) provides a definitive guide to understanding, recognizing & trading over 350 types of cross-market sports arbitrage trade using matchbets, European & Asian Handicaps, Under/Overs and others. Volume II in this series focuses on cross-market trades involving European Handicap bets.
