

Golf, Life, and Everything Else

Golf is a game of people loving people. Golf, Life, and Everything Else is about the people who play the game every day. The stories of those people who walk the municipal courses each weekend are the most powerful in the game. Whether it's a retired Navy Veteran, an Army Doctor, a Businessman, or just a couple of friends. When you step on the course there is no such thing as a stranger. This is what Golf, Life, and Everything Else is about. ??? Take the game out of the game. By the time you finish reading this book you'll have a new perspective on why more than 30 million people in this country play the game. It's not the hitting of the little white ball that really draws them in, it's golfing with other people. Learning who other people are and why they play the game. Also in this edition you'll find a new short story originally written for a Third Grade class in Henderson, Kentucky. If any of you are reading this book, thank you for your kind gifts while I was deployed to Afghanistan. Scroll up and grab a copy today.
