

Team Discussion Frameworks: Generate Ideas, Set Goals, Make Decisions, Solve Problems, and Develop Action Plans (Managers Toolkit Book 7)

As part of their work, Teams need to be able to successfully generate ideas, set goals, solve problems, make decisions and plan tasks. Discussing these items effectively is often the difference between a Team succeeding or failing. Too often, however, Teams find themselves facing these important types of discussions without any guidance on how to approach them. That's the purpose of this handbook. In it you'll find a Framework that guides you step by step on how to hold 6 of the most important types of Team Discussions. These are: Brainstorming Problem Solving Decision Making Task Planning Goal Setting Communications/Understanding. These Frameworks guide you step-by-step through each of these discussions, saving you precious time when you find your Team needing to discuss one of these areas. To give you an idea of when to use each Framework, also included are sample uses of each. Designed specifically for e-book users, TEAM DISCUSSION FRAMEWORKS can be kept as a handy reference on all your devices that support Kindle reading apps. This allows you to have it handy whenever you need it, whether planning a Team Meeting, or if you're in the middle of a meeting and need to decide how to discuss one of the 6 areas.
