Collection agencies have become more of a nuisance than the damn IRS, a carpet bagger, and those damn telemarketing calls you get at dinner time combined. * I was sick and tired of the harassing phone calls at home & work, threaten letters in the mail frequently. * Getting turned down for credit to get a stinking gas card. * Eating off the value menu at fast food restaurants with loose change from the couch. * I even had to sell my paid off SUV to cover some fucking medical bills! * Pawning my tv, ipod, jewelry, computer, and my damn car every once in a while to pay my rent! All my valuables I worked so hard to get. * Shopping at the consignment stores with coupons from the news paper for clothes for my family. * My beautiful wife was forced to take a job at Walmart just to get some extra cash for gas money and a little discount to buy much needed household items. Even had to take money out of my shitty IRA to pay a stupid tax bill. The stress for money was so overwhelming I had to sell my mothers funeral plot to cover an unexpected family members jail bond. * Family life at home began suffering me and wife was always arguing over money. couldnt even afford to take her out on our anniversary... * To make matters even more worse I had just started a small business and I was in desperate need of start up money, and I knew if I filed bankruptcy my dream of being a small business owner would have been over if I filed....The last day I was able to deal with this bullshit is when a collection agent called me at work after dealing with the king of all asshole customers! I snapped in front of my boss, and several customers. My face turned blood red and I ripped the damn phone from the wall, and pushed my boss to the floor. I was suspended without pay and immediately sent home. I sat in my car in the drive way upset thinking how in the hell I was going to tell my wife I may lose my job! I was so damn mad I wanted

to drive to that damn collection agents office and blow off some steam!while sitting in the car I decided to take action since I couldnt march into the collection agencies office, and beat those arrogant cock suckers to a pulp I would beat them at their own game. Since I had free time being suspended I did a massive amount of research, and I got my family to help too. In this how to guide I will teach you how to kick their ass, and get out of debt with medical bills, and other debts they have against you without filing bankruptcy! I show you how I was able to even remove judgments I had on public records. Get free and discount health care. The correct way of writing a dispute letter to the credit reporting agencies. So you wont get those stupid letters back they send. How to never receive a damn bill from the hospitals. While I was doing all this tedious research I stumbled upon a way of making \$300 a day on the internet. I am giving you that free along with several other surprise gifts! * Dont let these rich bastards put you in the poor house. Buy the ebook now before its too late!
