

Sacred Dwelling: A Spirituality of Family Life

In this lyrical and revelatory book, Wendy Wright shows how we are each profoundly formed (in the religious sense of the word) in the rough and tumble of family life. We learn to love with a little bit of the spaciousness of divine love by being stretched and prodded and broken open by our children. We grow wise as we have our foolishness exposed by the spouses that bear with us through it all. Every reader will be able to recognise themselves and their families in Sacred Dwelling - in all the gritty, heart-rending and beautiful poignancy of discovering that it really is true: God is with us.
