

The Friendship Book

The Friendship Book treats friendship as part of an ultimate solution to the problem of bullying. In the book, we address the things we must do, and the people we must be, to make and keep the friendships we need. This book addresses friendship in particular as a tool for overcoming bullying. The ability to make and keep friends is essential for children to cope in the school environment, and is also a critical life skill for later on. Through friendships, school organizations succeed, communities are built, and career success is achievable.
