

The Garage Guide to Distilling Spirits

The Garage Guide to Distilling Spirits is a Step-By-Step walk through of how I produce alcoholic spirits in my garage in New Zealand. Although distilling spirits is illegal in most countries, the New Zealand government in a moment of enlightenment decided that they would not tax or prosecute home distillers. Due to this special situation in New Zealand the book talks about products which are available locally and may or may not be available in other locations. The book contains photos of each step of the distilling process and an explanation of what is done, when its done and why its done. The Chapters cover: A Short History of Distilling, Distilling in New Zealand, The Equipment, Cleaning The Equipment, The Ingredients, The Method, Making the Wash, Clearing the Wash, The Distilling Process, Breaking Down the Spirits to Drinkable Quality, Flavouring the Spirit
