

## Power of Imagination

The Ancient Teachings Of the Masters are the oldest and most direct spiritual teaching known to Humankind. The books and discourse books written by Darwin Gross are the keys that unlock the wisdom and knowledge that already lies within you. The Teaching is a universal education, sacred and personal to every individual, and presents the opportunity for one to unfold into self awakening and God Realization here, now. Technique tools are included in this outstanding book, in addition to actual experiences, such as the person who was able to bypass death by seeing himself well and whole, the acquisition of a dog by a little boy who overheard the way to use this innermost power, and on and on. The methods are age-old and simple, however, man has to want to improve his life. The blueprint is contained between these fascinating pages of POWER OF IMAGINATION.
