

The Profitable Art and Science of Vibratrading: Non-Directional Vibrational Trading Methodologies for Consistent Profits

Enter the world of vibration trading with a new methodology for making more money, more safely. What if you could enter the markets and know, in advance, the exact value of trades needed to sustain a losing streak, by knowing their Martingale limits, to finally ensure a win? With Vibratrading you can. Applying the principles of Boundedness in conjunction with powerful stock/ETF diversification techniques, Vibratrading allows you to accomplish what most traders and investors previously thought impossible, giving you an unfair advantage in any market situation. A new and revolutionary perspective on trading and investing, Vibratrading provides a powerful methodology for extracting profit. Non-directional, it is designed to appeal greatly to the vast number of directional traders consistently struggling to keep from losing their trading accounts. Providing a better, safer way to participate in the markets to make consistent profits, it is the only book you need to gain a crucial competitive edge. Presents a radical new trading strategy, Vibratrading, that the market cannot move adversely against. Demonstrates how a scale trader can enter the market at any level, without being restricted to entry at the conventional lower end of the instruments historical range. Teaches traders and investors the important techniques of securitizing and monetizing profits with emphasis on risk free vibrational share accumulation. Presenting a truly non-directional methodology, Vibratrading is the book you need to make more money, more safely.
