

Rays Ride: The Amazing Journey of Ray Lewis

There's no arguing that Super Bowl XLVII in New Orleans was one for the books, and every Ravens fan already knows the happy ending. The Mercedes-Benz Superdome, which had been devastated by Hurricane Katrina, was completely renovated and filled with hopeful fans. There was an unparalleled energy of competition and camaraderie; for the first time in league history, two brothers were coaching the rival teams. To make the occasion even more memorable, following a killer half-time show by pop diva Beyonce, a power glitch caused the stadium lights to go dark for 34 minutes mid-game. Most remarkable about that particular Sunday, however, was that it was the last game Ravens linebacker Ray Lewis would ever play. *Rays Ride: The Amazing Journey of Ray Lewis* recaps the fascinating career highlights that brought Ray, a Raven since the team's 1996 inception, through injury and scandal and to his second Super Bowl victory.
