

The Silent Vow: Volume II : The Strands in Life that One Weaves

The Journey of The Silent Vow primarily takes an intelligent and healthy boy through the experience of a drug cult world where his physical and mental health, are taken for granted. There was nothing wrong with the life given to this boy, yet the feelings received from the consumption of drugs and alcohol were more important than the boys own safety. Through use and abuse, this boy forfeited his wellbeing as he subjects his life to trials and tribulations. Violations of the established legal system brought to life correctional facilities, psychiatric institutions, and reformatory schools. As he violated others he left passages and ways for others to violate him. As intelligent as he was he brought all his lessons to be learned into his existence. Although this story is told with 25 years of Hindsight, in those 25 years of psychological understandings lessons of how to cope and deal with life were included in every step of the story. If we as adults could only have had the wisdom when we were experiencing our lives as children our worlds would all be different places?
