

Things I Wish I'd Known Sooner

Jaroldeen Edwards has discovered that the best thing about adult life is the privilege to choose my own patterns, to put first the things that matter the most to me and my family. The journey through this book will be inspiring to all mothers as well as to those without children, as Edwards says, I have always felt that... in meaningful ways, we are alike. Her insights evolve through the book and are filled with humor, common sense, and pure joy of life. She considers motherhood a profound career and noble profession. She observes how much women are like wildflowers because their talents, wisdoms, and dreams bloom only in certain conditions. This book will be a beloved addition to any church library and woman's collection.
