

# Nuclear Energy & Environmental Safety

The present book consists of five chapters. First Chapter deals with international regulation of nuclear energy covering the international agreement on nuclear safety along with health and safety standard issued by IAEA. Second chapter speaks of other international regulatory bodies and covers URATOM, OECD and ILO. Chapter three discusses the basic issues covering control of trans-boundary nuclear risk with regard to international obligation on nuclear installation, cooperation, etc. Fourth chapter examines the very scope of state responsibility for nuclear damage and tries to negotiate between strict & absolute responsibility. Finally, the chapter five deals with civil liability for nuclear damage and covers the areas such as Paris & Vienna Conventions, non-party claim and nuclear damage and environmental safety. ISBN 978-1-63102-250-0 (e-Book).
