

Bulgarian Antarctic Research: Life Sciences

This second volume of the Bulgarian Antarctic Research Series contains papers presenting the scientific results of the Fourth and Fifth Bulgarian Antarctic Expeditions (1996, 1997). Coverage includes papers on the soil morphology, microflora, yeast strains, soil microorganisms, macromycetes, interstitial amoebae, soil nematodes, marine crustaceans, and cestodes in penguins at the Bulgarian Antarctic Base on the Livingston Island, South Shetlands, Antarctic.
