

Wealth Without a Job: Freedom and Security Beyond the 9 to 5 Lifestyle

The author of this system, Andy Fuehl, was downsized and unemployed after devoting over 15 years to corporate America. Yet, he became a millionaire in less than three years as a result of using the accelerated subconscious reprogramming technology and specific strategies, behaviors, and beliefs of the ultra-wealthy that you'll be using in this system. Thousands of other people have also used this system to create an abundant and happy life instead of just getting by, wishing and hoping it would change. Now, you too can take control of your life and start the business of your dreams, doing the work you love, or skyrocket the results of your current business to new heights exactly the way you want. Here's a fraction of what you'll learn in this system: Why a job is much riskier than being in your own business. How to determine your true purpose so that you choose a business that expresses your own values. How to minimize the emotions that hinder success in entrepreneurship and maximize the emotions proven to help you succeed. How to incorporate the three ingredients necessary for effective change - Awareness, Acceptance, Action - into your everyday life. The most powerful negotiating strategy ever used to produce win-win results. How to launch your own business even if you're currently employed or unemployed. How to make the transition from having a job to being a successful entrepreneur in the business of your choice. The language of success that stimulates you and motivates you to take action now. And much, much more!
