

How not to be a debtor like the United States (Debtor no more: Reverse it, STOP being a debtor, Now! Book 1)

My goodness! The United States government was/is on the verge of being shut down by the Tea Party in Congress! Whether the government is shut down or not, the Tea Party and all those politicians in favor of limiting or reducing government spending in the United States are doing a great job. Kudos! If you are a debtor, bad idea! Reverse it now!!! No, it is not too late, please stop being a debtor, please!!! Manage what you have well, build you confidence, stand tall, and become productive again. Yes, you can! Ideally in life, if you have \$5 at home, you should not spend more than \$5, at any given time. If you are smart, you should spend only \$2 and save the rest \$3 for investment, and for rainy days. This is simple arithmetic, isnt it? Why is the United States of America spending money it does not have, for goodness sake!!! It is simply stupid, ok! It must stop, now!
