

# History of Texas Wine, The: From Spanish Roots to Rising Star (American Palate)

Texas 350-year wine story is still reaching its savory peak. Spanish colonists may have come to the state to spread Christianity, but under visionary Father Fray Garcia, they stayed and raised grapes. Later immigrants brought their own burgundy tastes of home, creating a unique wine country. When a North American pest threatened European vines, it was Texan scientist T.V. Munson who helped save the industry overseas. When Prohibition loomed stateside, Frank Qualias Val Verde Winery in Del Rio survived by selling communion wine and is now the longest-operating bonded winery in the state. Today, tourists flock to Texas vineyards, and the state sells more wine every year. Join local experts Kathy and Neil Crain and sample the untold story of Texas wine industry.
