

Worker Health Chartbook, 2000: Nonfatal Illness

Worker Health Chartbook, 2000 presents national and state occupational health data and statistics, graphically describing the burden of our Nations occupational injuries and illnesses. More than 40 scientists from federal and state agencies collaborated to present health surveillance information in the Chartbooks 172 charts and data tables. The Chartbook has a descriptive focus, presenting data and charts that characterize types of injuries and illnesses by gender, race, industry, and occupation. The Chartbook also provides comprehensive reference materials, including appendices describing the 18 surveillance and statistical systems, and the industry and occupation classification systems.
