

My God! You dont exist!

A book for members of ALL religious faiths. A concise, personal, witty and accurately written account on why our world religions are patently man-made, ultimately destructive, psychologically damaging and just not necessary anymore. Unlike some well known authors on the subject of Atheism, James was once a very strong believer in God. As a child he was raised a Catholic before spending 18 years in the Mormon church followed by a brief flirtation with The Evangelical Born-again christian movement, and hence the book is empathetically written and is addressed to members of religious organisations around the world. The challenge: to dwell on one very simple idea: God does not exist...he never did.
